### **KEL Introduces LGC01Series Socket for FLGA**

KEL Corporation will begin sales of a new connector series as follows. This product launch is part of an aggressive R&D program aimed at generating more than 30% of net sales from products developed within the past three years. As a specialist in connectors, KEL is dedicated to using the latest advances in technology to manufacture and sell connectors that meet the recent trends of electronics products becoming lighter, slimmer, shorter and smaller.

#### **LGC01Series Socket for FLGA**
